

Canberra Camp

ABBEY SMITH, YR 5

Stage 3 of Mount Keira Demonstration School were all excited to go to camp and the day

came to go. We waited to go on the bus at school. We were all excited when the bus finally arrived. We waved to our parents and started to roll. It took three and a half hours to get there.

When we arrived we went to the National Portrait Gallery. We saw Ned Kelly's Death Mask.

After we went to Parliament House and saw Tony Abbott live. Then we went to the War Memorial. At night time we went to the dinosaur museum. We saw a piece of the moon which was very small. There were also dinosaur teeth and crystals .

After that we went to our cabins. That's when the fun happened! The next day we went to Questacon where there were lots of cool things to do. There was a slide called Free Fall and lots of people liked it but some hated it. There was even someone crying.

Everyone was tired after a big few days. Stage 3 students were happy they went to Canberra.
