CAMBERRA CAMP

On Tuesday the 21st to the 22nd of October stage 3 went to an overnight camp for their rich task about democracy and government we visited all Canberra's tourist attractions.

We arrived at school at 6:15am!!!!!!

For a late night of 5:51am to early morning of 6:00am how did they survive?

After a long bus trip of 3 and a half hours we arrived in Canberra we were finally ready for Canberra's National Portrait Gallery split into two groups with a tour guide for each. They were given a stool and some paper and a board and went to the first portrait of the protesters at the Franklin River then one of a lady named Nancy Wake who helped the soldiers and fought against the Nazis.

Year 5 student Abbey quoted, "I enjoyed the Ned Kelly death mask he looked so different with no beard"

After that we visited the war memorial and learnt

About World War 1, the Vietnam War and much more we enjoyed looking at the poppy wall year 5 Rhiannon quoted "I loved the Vietnam war gallery". We watched inspiring videos it was amazing that so many people sacrificed their lives so we could live freely today.

Next we went to the bush capital lodge and got changed for the dinosaur museum we saw lots of bones and learnt lots of facts about dinosaurs such as some dinosaurs are not real people found a dinosaur body and no head so they got a different dinosaurs head and put it on the body and invented a new dinosaur! "Year 5 Lucy quoted I loved the gift shop and the fossils of all kinds of animals we even saw a piece of the moon and a piece of Mars but we were also in for a big bored shock!!!!!!!!!"

The next day we drove to Question it was so cool with all the fascinating little science experiments their were little live shows where they mixed liquids but my favorite part was the free fall you held onto a bar and then dropped 7 meters down year 5 Abbey quoted "it was really fun my favorite part was the interactive room where you got to walk around and play with all of these superb experiments"

After that we visited the Australian institute of sport (A.I.S) we got to play around with heaps of mini hands on sport activities such as basketball, running, sledding, kayaking and loads more we also got to have a look at the pool, gymnastic area, the gym and more! In the gym we even got to see some famous runner's swimmers and all kinds of athletes! Year 5 Charlie quoted "I liked the interactive room because I tried sports I've never tried before"
